

Community-Based Literacy Organizations Competitive Sub-grant Recipients 2005-2006

PURPOSE

The purpose of the Community-based Literacy sub-grants is to provide support for the work of private, not-for-profit literacy organizations that offer tutoring and other one-on-one or small group instructional approaches delivered primarily by volunteers. In most cases, the adult learners served by these programs need low-level literacy instruction.

FUNDING PRIORITIES

Priorities include low-level literacy instruction, English as a Second Language instruction (ESL), workforce development, technology, continuous program improvement, collaboration with public providers, and family literacy instruction.

FUNDING LEVELS

In the 2005-2006 competitive process, grants are offered in tiered categories. The amount of funding for which an organization is eligible is tied to the number of adult literacy students served in the last fiscal year. Funding tiers are as follows:

- Tier 1 programs serving 50-99 students: eligible to apply for \$10,000.00
- Tier 2 programs serving 100-149 students: eligible to apply for \$20,000.00
- Tier 3 programs serving 150-199 students: eligible to apply for \$30,000.00
- Tier 4 programs serving 200-249 students: eligible to apply for \$40,000.00
- Tier 5 programs serving 250 + students: eligible to apply for \$50,000.00

FUNDED PROGRAMS

Program Name	Program Location	Amount	Contact Person	Contact Phone #	Contact Email Address
